Section 4 If flight test observed by CAA Flight Operations Inspector

Section 5 Course Completion Certificate

To be completed by JAR Type Rating Organisations not approved by the UK CAA.

Section 6 Certificate of Language Proficiency Assessment

ICAO has published a Standard that requires flight crew of aircraft using radiotelephony to be proficient in the language used for communication. All pilots must obtain an assessment of their Language Proficiency to at least Level 4; in the UK, this will be in English. This Standard became obligatory from 05 March 2008.

Where an applicant uses English as their primary language for communication and demonstrates that they are fluent, they may be assessed ICAO Level 6 (Expert). Examiners may certify that an applicant is fluent in the use of English for radiotelephony by placing a tick in the **Yes** box in Section 6. Where a candidate is considered less than fluent, or in the case of candidates whose primary language is not English and there is any doubt regarding their fluency in English, the examiner should place a tick in the **No** box. Applicants who are not assessed as Level 6 may obtain the necessary assessment from an accredited language assessment centre. Examiners are only required to identify fluency, and should not attempt to assess levels of fluency. If there is any doubt whatsoever the tick should be placed in the **No** box.
